## 2. GENERAL TERMS AND CONDITIONS

### 2.1 General terms of payment

This document sets out the rates for the various services provided and the conditions under which they are applied by the **Société d'Exploitation Aéroportuaire Deauville Normandie (SEADN)**.

It has no contractual value. The rates are applicable from January 1<sup>st</sup> 2026 and are subject to change if necessary. They are quoted in Euros and are exclusive of tax.

Each service is provided subject to availability of staff and equipment.

This information is given for guidance only. The airport reserves the right to modify them without prior notice, subject to approval by the prefecture.

Terminal opening hours (local time):

- 8 am to 8 pm Local time Monday to Sunday during summer season (1st April to 31st October),
- 9 am to 6 pm Local time Monday to Sunday during winter season (from 1st November to 31st March),
- For scheduled flights, and in exceptional circumstances, it is possible to request an extension outside the times indicated above, by making a request 24 hours before the flight.

### 2.2 Means of payment

Payments may be made at the aeronautical fees counter during terminal opening hours:

- In cash, by credit card (VISA, MASTERCARD, American Express),
- By bank cheque made payable to SEADN,
- By bank transfer to the order of SEADN.

Bank	CREDIT AGRICOLE ALPES PROVENCE
Branch number	11306
Sort code	00030
Account number	48175071051
Key	73
IBAN	FR76 1130 6000 3048 1750 7105 173
BIC	AGRIFRPP813

### 2.3 Invoicing of aeronautical fees

Aeronautical invoices must be paid in total at the aeronautical tax payment counter before takeoff. Any discrepancy between the fees collection and the amounts actually due, will be subject to an adjustment invoice plus billing costs.

Payment in cash of the full amount of aeronautical charges at the time of each aircraft movement exempts you from billing charges.

Outside the opening hours of the Terminal described above, the invoice will be sent by post.

In the event of non-payment in cash, the invoice will be sent to the user, increased by a flat-rate sum for 'invoicing costs', i.e. 10.00 euros excluding tax (this flat-rate sum does not exempt the user from legal costs).

However, aeronautical fees are invoiced:

- Monthly for customers whose charges are handled by accredited consignees,
- Monthly for account customers benefiting from SEADN approval, which the latter may be withdrawn at any time.

Customers who do not fall into the above categories may guarantee their payment by accepting the principle of advances on future fees, or authorize the SEADN to proceed by direct debit.

## 2.4 Payment terms

Our invoices are payable within 30 days of the invoice date. All invoices under 15.24 euros excluding VAT are payable in full upon arrival.

## 2.5 Special case of Aeronautical and Handling Fees

With the exception of airlines operating scheduled commercial flights on the platform, based customers and military flights, fees must be paid in full before takeoff, or be the subject of a prior account opening with a deposit (the amount of which will be equal to twice the landing fee for the concerned aircraft).

## 2.6 Late payment

For any invoice sent by the SEADN during month M for which payment has not been received within 30 days, a reminder letter will be sent free of charge.

Litigation: if the 3rd reminder remains unanswered within 15 days, the case is referred to litigation. You will be charged a flat-rate handling fee of 74.45 euros (incl. VAT) for administration costs.

In addition, all costs generated by the litigation procedure shall be borne in full by the debtor, implementation of the procedure provided for in article L-224-4 of the Civil Aviation Code.

All disputes relating to the performance of the contract will, by express agreement, be submitted to the Commercial Court of Caen, subject to the right of the SEADN to have recourse, if it sees fit, to the Court of Common Law.

## 2.7 Complaints

Complaints do not suspend payment. It is the responsibility of the beneficiary to make their complaint before the invoice in question is due.

They must be sent in writing by registered letter with acknowledgement of receipt to the attention of the Airport's invoicing department.

Complaints must include:

- the number of the invoice concerned
- the date and number of the flight (if applicable)
- the service(s) in dispute.

It is the responsibility of users to inform Deauville-Normandie Airport of any changes made to their fleet: purchase, sale, hire, leasing, modification of the characteristics of an aircraft, etc., otherwise they will be billed for services they did not receive.

The beneficiary may not claim adjustment of invoices already issued. Modifications will only be effective from the date of receipt of the certificate of airworthiness.

## 2.8 Value added tax (VAT)

VAT is charged at the standard rate in force. The principles of taxation and exemption from VAT of airport services (landing, parking, passenger and fuel charges) and ancillary services are defined in articles 259-1° of the General Tax Code (in application of the ‘services’ directive 2008/8/EC of the Council of 12 February 2008), as well as in article 262-II 7° of the General Tax Code. In all cases, the application of VAT depends on the system to which the company invoiced for airport services is subject to.

Users are responsible for informing Deauville-Normandie Airport of any changes made to their fleet.

All prices are quoted exclusive of tax. Certain users may be entitled to VAT exemptions, which are governed by article 262, II-4 of the French General Tax Code. Instruction 3 A-6-07 of 06/07/2007 updates the list of airlines deemed to meet the eligibility condition.

Operators	Principle of taxation **
Licensed French airlines* carrying <u>less than 80%</u> of their traffic internationally.	Taxable
Licensed French airlines* carrying <u>more than 80%</u> of their traffic internationally.	Exempt
Authorised foreign transport airlines benefiting from the exemption provided for in art.262.II.4 of the CGI (General Tax Code)	Exempt
Authorised foreign transport airlines not benefiting from the exemption provided for in art.262.II.4 of the CGI (General Tax Code)	Exempt from French VAT
Private and business aviation - French and foreign aerial work companies.	Taxable
French and foreign military aircraft, French and foreign state aircraft.	Taxable

(\*) Companies defined in Articles L6412-1 and L.6412-2 of the French Transport Code

(\*\*) Excluding special cases and derogations

The French airlines listed in appendix A and all foreign airlines, with the exception of those listed in appendix B of the instruction, are no longer required to issue a certificate. Only French companies not listed in appendix A and foreign companies listed in appendix B wishing to benefit from this exemption undertake to provide the airport operating company with a valid certificate for the current year, together with their intra-Community number.

## 2.9 Tariffs and conditions of application

Prices are given in Euros and exclude VAT.

Weights are given in tonnes. They are calculated according to the Maximum Take-Off Weight.

## 2.10 Putting a customer on account (payment on due date)

The following documents are required in order to analyse the requesting customer:

- Photocopy of the pilot's papers,
- Photocopy of the aircraft documents,
- Written request from the airline.

In return, the application to open a 'customer account' is composed as follows:

- Standard letter 'customer account application',
- Current tariff guide.

The airline's written request is examined by the Director of the airport and the Financial Department of the SEADN and approval (or refusal) is notified in writing within ten days.

## 3. MAIN FEES

### 3.1 General principle of application of European Economic Area (EEA) tariffs and international tariffs

A European Economic Area (E.E.A.) fare is considered to be any flight which point of departure or point of arrival is located in land areas and territorial and adjacent waters over which France exercises sovereignty, protection or guardianship.

The member countries of the European Economic Area are as follows: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden.

All other flights are considered as international flight.

This principle applies to landing, lighting, parking and passenger fees.

### 3.2 Landing fees

**Billing basis:** the landing fee is calculated on the basis of the Maximum Take-Off Weight (MTOW), rounded up to the nearest tonne. This is the fee charged for the use of runways, taxiways and aprons. Aircraft powered by electric motor(s) are exempt from landing fees.

#### 3.2.1 Rates for aircrafts up to 5 tonnes

MTOW in tons	Euros ex-VAT DOMESTIC / E.E.A.	Euros ex-VAT INTERNATIONAL
Less than 1,5 tons	13,00 €	21,00 €
Up to 2,5 tons	21,00 €	36,00 €
Up to 5 tons	30,00 €	45,00 €

### 3.2.2 Rates for aircraft over 5 tonnes

#### Domestic / E.E.A. / International

### 3.3 Helicopter landing fees

TYPES	Euros ex-VAT NATIONAL – E.E.A.	Euros ex-VAT INTERNATIONAL
<b>Helicopters up to 2,000 kgs :</b> BELL 206 – ENGSTROM HUGUES 300 GAZELLE – ROBINSON 22/66 AS 350 – ECUREUIL – HUGUES 500 ALOUETTE 2&3 EC120	13,47 €	31,44 €
<b>Helicopters over 2,001 kgs :</b> AS365 – ECUREUIL 2 AGUSTA 109/139/189 BELL 222/426 IKORSKY 76 – EC 135	31,44 €	40,41 €
<b>For commercial flights, a handling assistance fee is compulsory (see schedule of airport handling fees)</b>		

### 3.4 Runway lighting fees

**Basis of invoicing:** the charge for the use of lighting systems is payable by all aircraft taking off from or landing at an airport open to public air traffic, either at night or during the day when visibility is poor, when, at the request of the pilot-in-command or, for safety reasons, on the order of the authority responsible for the operation of the lighting system (art. 10 of the Order of 24 January 1956), the latter has been switched on.

The aeronautical night is determined by considering the official time of sunset increased by half an hour and the official time of sunrise decreased by half an hour.

#### Rate per movement

Regime	Euros ex-VAT
E.E.A. (European Economic Area) and International	37,00 €

#### Special conditions

The following reductions are granted:

Recipients	Reduction
Aircraft returning to the airport due to technical incidents or adverse weather conditions on arrival and departure ( <i>force majeure</i> )	100 %
Aircraft assigned to the movement of persons performing functions whose list is established by the Minister in charge of commercial aviation (notice of the Calvados Prefecture).	100 %

### 3.5 Parking fees

**Billing basis:** the charge is calculated per hour of parking based on the maximum take-off weight rounded up to the nearest tonne; on a minimum basis of 1 tonne MTOW.

An allowance of ½ hour is systematically granted. Any hour started is due.

#### Fees

Regime : E.E.A. (European Economic Area) and International	Euros ex-VAT / ton / hour	
	From November 1 <sup>st</sup> to March 31 <sup>st</sup>	From April 1 <sup>st</sup> to October 31 <sup>st</sup>
On apron	0,60 €	0,90 €
On grass parking		0,45 €

### 3.6 Passenger fees

**Billing basis:** passenger charges are due on embarkation of passengers, for any aircraft operated for commercial purposes or for any aircraft with a maximum take-off weight equal to or greater than 6 tonnes (Decree of 28 February 1981 regulating the conditions for establishing and collecting user charges for facilities set up to receive passengers and movements at airports in metropolitan France and overseas).

If the passenger list is not sent to the operator within 24 hours of the movement, the number of passengers invoiced will correspond to the maximum capacity of the aircraft type in question (manufacturer's data).

#### Rates

Regime	Euros ex-VAT / passenger
E.E.A. (European Economic Area)	10,00 €
International	10,15 €

**General exemptions :**

The following are exempt from passenger fees:

Recipients	Reduction
Crew members	100 %
Passengers in direct transit making a temporary stop at the Airport and departing on the same aircraft with the same departure flight number as the arrival flight number.	
Passengers on an aircraft that has been forced to return to the Airport due to technical incidents or adverse weather conditions (force majeure).	
Children aged two and under.	
Passengers on a medical evacuation flight.	

**3.7 Rate for passengers with reduced mobility (PRM)**

In accordance with EU Regulation N°1107/2006 and the Council of 05 July 2006, effective 1 July 2008, the delegate provides assistance adapted to persons with reduced mobility.

**Billing basis:** the PRM fee is due when all passengers board a commercial and private aircraft of more than 6 tons.

**Rates :**

Upon departure	Euros ex-VAT / passenger
E.E.A. (European Economic Area)	0,60 €

**General exemptions :**

Recipients	Reduction
Passengers in direct transit making a temporary stop at the Airport and departing on the same aircraft with the same departure flight number as the arrival flight number.	100 %
Passengers on an aircraft that has been forced to return to the Airport due to technical incidents or adverse weather conditions (force majeure).	
Children aged two and under.	
Passengers on a medical evacuation flight.	

### 3.8 Fuel distribution facility usage fees

**Billing basis:** At Deauville Airport, aircraft fuel is sold at the current oil price plus the 'variable component' of the aviation fuel distribution facility charge.

#### Tariffs

Fuel	Unit	Euros ex-VAT
<ul style="list-style-type: none"><li>• AVGAS</li><li>• JET A1</li></ul>	Hectolitre	0,20 €

## 4. AIRPORT HANDLING SERVICES

### 4.1 Definition of touchdowns

**Commercial touchdown:** The commercial touchdown of an aircraft requires the embarkation or disembarkation of passengers and the loading or unloading of baggage, with or without additional aeronautical services.

**Private touchdown:** a touchdown is said to be private when the aircraft is not operated by an airline.

### 4.2 General principles

Handling includes:

- Check-in, disembarkation and boarding of passengers, weighing of baggage,
- Assistance with the aircraft positioning, placement of wheel chocks, stairs (during loading or unloading) and refuelling,
- Weight and balance loadsheet, sending movement messages as requested by the company, weather and NOTAM files, use of terminal facilities.

### 4.3 Special conditions

Recipients	Reduction
For any aircraft diversion to Deauville airport requiring only the handling of passengers and their baggage	50 %

### 4.4 Special terms and conditions: Insurance

#### Exoneration and limit of liability

Whatever the cause, any liability on the part of the Airport will be limited to direct damage and will exclude consequential and non-consequential immaterial damage, within the limits of the contractual ceilings of the insurance policies taken out.

As regards ground handling operations, they are governed by the provisions of the IATA SGHA 2008/2013 model contract and in particular by its Article 8 on liabilities and compensation.

Concerning aircrafts or motorised land vehicles parked at the airport, they remain under the full responsibility of their owner or keeper, and the airport operator does not act as custodian.

Concerning the occupation of the public airport domain, it is conditioned to the delivery by the Airport of a temporary occupation agreement.

**4.5 Rates for NATIONAL, E.E.A. and INTERNATIONAL handling****In euros excl. VAT**
